

2019 PRODUCT DATA

UNILOCK[®]
DESIGNED TO CONNECT.

UNILOCK® QUALITY GUARANTEED

GOOD CLASSIC

Our budget-friendly, Unilock Classic pavers and walls are manufactured to exceed ASTM standards for quality and strength. Available in classic shapes and styles, these products utilize a traditional **product mix of large and small aggregates**, that's consistent from top to bottom, with color mixed throughout.

BETTER ENDURACOLOR™

The refined surface of Unilock Enduracolor products is achieved with a **two step manufacturing process** that combines a base of coarser aggregates for a **stronger foundation**, with concentrated color and **wear-resistant finer aggregates on top**. This process protects the surface from the appearance of fading over time because the top layer prevents large, lighter color aggregates from ever showing through.

BEST ELEGANCE™

Deep, rich colors and a multitude of **unique Reala™ textures** combine to deliver the timeless beauty of Unilock Elegance. From the timeworn look of European cobblestones, to the classic luxury of riven natural stone slabs, our Elegance collection offers styles you can't get anywhere else and thanks to Ultima Concrete, the look you purchase is the look that will last, with up to **4x the strength** of poured in place concrete.

EXCLUSIVE UNILOCK TECHNOLOGIES

REALA™

Ultra realistic textures cast from Natural Stone, brick and historic cobblestones.

ULTIMA™

A proprietary manufacturing process creates pavers with up to four times the strength of poured concrete.

COLORFUSION™

A proprietary technology that disperses color randomly for a natural granite-like appearance.

EASYCLEAN™

Factory sealed to provide integral surface protection from stains

There are two Clean Factors (CF®) to choose from:

CLEAN FACTORS (CF)	CF 90	CF 100
Pavers are pre-sealed at the factory	*	*
Enhanced resistance to weathering	*	*
Reduced dirt absorption	*	**
Stains from leaves, coffee, ketchup, mustard, wine and BBQ oils are easier to remove	*	**

Notes: **Sold in full bundles only.** Rivercrest is recommended for walls under 2ft. Ideal for straight or curved walls, seat walls, pillars, tree rings, planters, firepits and grill islands. Integrated connectors require no pins or clips. Minimum radius using equal amounts of each unit is 1.25m / 4.1ft. Using only unit 1 & 3 a 1.055m / 3.5ft radius can be achieved. For more information, please consult the Rivercrest installation booklet.

LOOK INSIDE!

U-Cara fascia panels hang easily on the patented Sure Track™ backer block.

U-Cara™ Fascia panels can be placed anywhere along the Sure Track Backer Block, allowing for a variety of patterns, color and texture combinations not possible with other systems.

The U-Cara Multi-Face Wall System represents a revolution in wall design.

This patented system, exclusive to Unilock®, is comprised of two basic components:

- | Sure Track™ backer blocks provide dimensionally accurate structure
- | U-Cara fascia panels provide unlimited design options

SEALERS, CLEANERS & SANDS

PAVER CLEANERS

POLYBIND™ OIL & GREASE CLEANER

Polybind Oil & Grease Cleaner is effective in removing oil and grease from the surface of concrete pavers and natural stones. Easy to use - dissolves, dislodges and removes oil and grease. No hydrochloric acid in product - washes off with water.

Packaging • 1 quart container (6 per carton, 24 cartons per pallet)

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ EFFLORESCENCE CLEANER

Polybind Efflorescence Remover will remove any efflorescence stains trapped in the concrete paver and natural stone pores. It will make the pavers look more clean and vibrant. This efflorescence cleaning is a necessary step before a sealer is applied. The sealer will be able to get a deeper penetration into the now-clean pores.

Packaging • 1 & 5 gallon • Box of 4 x 1 US gallon (24 1 gal boxes & 48 5 gal pails per pallet)

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ RUST CLEANER

Polybind Rust Cleaner is effective in removing rust from the surface of concrete pavers. Contains no muriatic acid.

Packaging • 1 quart container (6 per carton, 24 cartons per pallet)

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ RUBBER, PAINT & TAR REMOVER

Polybind Rubber, Paint & Tar Remover is effective in removing rubber, paint and tar from the surface of concrete pavers and natural stone. Easily washes off with water and is easy to use.

Packaging • 1 quart container (6 per carton, 24 cartons per pallet)

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

NATURAL STONE CLEANERS

UNICARE NATURAL STONE ACID CLEAN

NEW!

1L and 5L

Removal of:

- Cement Staining
- Efflorescence
- Iron Oxide (Rust)
- Cement mortar
- Grout

Note: Never use hydrochloric or sulphuric acid based products. **ONLY FOR ACID RESISTANT STONE.**

Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

UNICARE NATURAL POWER CLEAN

NEW!

1L and 5L

Removal of:

- Oil & Grease
- Food Stains
- General Dirt & Mud
- Light cement contamination (on acid sensitive surfaces)

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

UNICARE BIOCLEAN

NEW!

1L and 5L

Removal of:

- Black spot algae
- Green algae
- Plant stains from leaves, wood, trees, berries & flowers
- Organic staining from bark & compost
- Colored stains from food spillages, tea, coffee and wine

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ WET LOOK SEALER

Polybind Wet Look Sealer is made from acrylic-based polymers. It penetrates deep into the concrete paver and natural stone pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.
 Packaging • 1 and 5 gallon available • Box of 4 x 1 US gallon (24 1 gal boxes & 48 5 gal pails per pallet)
 Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ SATIN LOOK SEALER

Polybind Seal Satin Look is made from acrylic-based polymers. It penetrates deep into the concrete paver and natural stone pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt. Low-gloss matte finish, solvent-based.
 Packaging • 1 and 5 gallon available • Box of 4 x 1 US gallon (24 1 gal boxes & 48 5 gal pails per pallet)
 Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ ECO SEAL LOW GLOSS

Polybind Eco Seal Low Gloss is 100% pure, high-grade acrylic used to seal concrete pavers, clay pavers and natural stone. It penetrates deep into the pavers and natural stone pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.
 Packaging • 1 and 5 gallon available • Box of 4 x 1 US gallon (24 1 gal boxes & 48 5 gal pails per pallet)
 Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

POLYBIND™ ECO SEAL HIGH GLOSS

Polybind Eco Seal High Gloss is 100% pure, high-grade acrylic used to seal concrete pavers, clay pavers and natural stone. It penetrates deep into the pavers and natural stone pores, thus reducing the oil and dirt penetration, as well as protecting them from the corrosion of de-icing salt.
 Packaging • 1 and 5 gallon available • Box of 4 x 1 US gallon (24 1 gal boxes & 48 5 gal pails per pallet)
 Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

UNICARE NATURAL STONE NATMATTE SEALER **NEW!**

1L and 5L
 For Porous Stones
 • No change of color • No surface coating, sheen or shine at all • Riven Sandstone & Smooth Sandstone
 Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

UNICARE NATURAL STONE NATCOLORENHANCE SEALER **NEW!**

1L and 5L
 Color Enhancement For Porous Stones
 • No surface coating, sheen or shine • Breathable • Lasts several years • Easy to apply
 Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

SEALERS (Continued)

SUREBOND 1300 JOINT SAND STABILIZING SEALER - MATTE FINISH

Surebond Joint Stabilizing Sealer is an epoxy modified, single component VOC, EPA and OSHA compliant, solvent-free penetrating sealer that provides protection to interlocking paving stone installations against salt spray, acid rain, food and beverage stains, and other oxidizers. It binds joint sand together and ensures the integrity of the pavements by forming a homogeneous, flexible surface that stops erosion and joint sand failure in large paver installations. The sealer is also used to seal retaining walls and for concrete and aggregate and split-face stone to protect against staining salt spray and acid rain damage and discoloration for architectural, industrial, and residential installations.

Packaging • 1 and 5 gallon containers available • 55 gallon drum available on special order.

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

SUREBOND 7000 JOINT SAND STABILIZING SEALER - WET LOOK

Seals the surface and bonds joint sand between interlocking concrete pavers. Protects colored, stained and exposed aggregate concrete from staining. Resists acid, salt, other corrosives and weathering. Stabilizing Sealer is water based, single component and epoxy-modified. It exceeds all VOC and EPA standards. The product is non-hazardous and has the consistency of water. It is milky white in appearance when applied, and dries crystal clear creating a semi-gloss finish.

Packaging • 1 and 5 gallon available • 55 gallon drum available on special order

Note: Carefully read all instructions and safety information on product label prior to application. For additional safety information, see MSDS.

SUREBOND 8700 WET LOOK JOINT SAND STABILIZER WITH FUNGICIDE

SB-8700 is an advanced premium acrylic sealer that will not yellow under exposure to sunlight. It's a 2 in 1 product; it protects the substrate surface and stabilizes jointing sand at the same time. Specially formulated with antifungal agents designed to help inhibit the growth of mold, fungi and moss on horizontal pavement surfaces, it forms a tenacious bond to the concrete or masonry surface. Wet look, Rain safe within 90 minutes, water repellent, breathable, solvent based.

Packaging:

- 1 gallon container
- 5 gallon pail (36 per skid)
- 55 gallon container (4 per skid)
- Box of 4 x 1 gallon containers (4 x 1 US gal)
- 36 cases per skid (of 1 gal)
- 80-120 sq.ft. coverage per gallon for pavers (approx.)*
- 100-300 sq.ft. coverage per gallon for natural stone (approx.)*

ADHESIVES

UNILOCK SB-10 ADHESIVE

10 oz - ADH009-1 / 28 oz RS-ADH015-1

10 oz. Tube: 20' at 1/4" bead (12/Case) (140 cs/skid) 28 oz. Tube: 52' at 1/4" bead (12/Case)(60 cs/skid)

SPECIFICATIONS - (Conforms to UN-STD. 1804, ASTM 2339-70& FHA UM-60)

Color: Natural Sand Color

Base: Rare Earths & High Strength Synthetic Rubbers & Resins

Weight: Over 8 lbs. Per Gallon (24 Cartridges at 26 lbs.)

Packaging: 1/10th Gallon Cartridges (10.5 Fl.Oz.)/12 per case

Staining: None

CLEANUP - Use mineral spirits or chlorinated solvents - read solvent suppliers caution notes for use of this product.

STORAGE - Store in cool place - Rotate stock - Keep at 70 °°F for 24 hours before use in cold weather. Store cartridges in upright position.

POLYBIND HIGH STRENGTH HP LOW VOC ADHESIVE

10 oz. Tube: (12/Case) (90 cs/skid) 28 oz. Tube: (12/Case)(60 cs/skid)

SPECIFICATIONS - (Exceeds ASTM D3498 and ASTM C557)

This is one of the strongest polyurethane adhesives on the market and is specially formulated for bonding concrete, natural stones, block, bricks and pavers. It is intended to provide a permanent bond to approved materials and can be used on dry or humid surfaces. Drying times vary depending on factors such as humidity, porosity, temperature and materials bonded together. VOC compliant / Low odor / Non-shrinking / Fast curing. Environmentally friendly, it replaces solvent-based adhesives and is safe to use indoors or outdoors.

POLYBIND EXTRA PERFORMANCE ADHESIVE

10 oz. Tube: (12/Case) (90 cs/skid) 28 oz. Tube: (12/Case)(60 cs/skid)

SPECIFICATIONS

This is one of the strongest polyurethane adhesives on the market. It is especially formulated for bonding concrete, natural stones, blocks, bricks and pavers. It is intended to provide a permanent bond to approved materials and can be used on dry or humid surfaces. VOC compliant / Low odor / Non-shrinking / Fast curing. Environmentally friendly, it replaces solvent-based adhesives and is safe to use indoors or outdoors.

SANDS

POLYBIND HP SAND

Designed for paver joints up to a maximum of 1 inch.

Polybind HP Sand is a unique mixture of polymer binders and calibrated sand available in Nevada Tan and Oxford Grey. The installation of Polybind Sand is almost identical to using regular paver joint sand, except for the application of water. Once it sets, it becomes very firm and locks between the paver joints. This firm bond maintains pavers securely in place, being equally effective on both horizontal and sloped surfaces.

Packaging:

- 50 lb bag
- 56 bags per skid

Coverage:

- 65-85 sq.ft. per bag for narrow joints/larger joints will require more sand

SANDS (Continued)

POLYBIND COMPLETE SAND

Designed specifically for drainage and non-drainage base.

Polybind Complete Sand is specifically designed for drainage and non-drainage base systems. It can be used with concrete pavers, wetcast and natural stones. It is recommended for a variety of uses, including pool sides, patios foot paths, driveways, parking spaces, pavements, etc. This complete multi-purpose sand is available in three colors: Nevada Tan and Oxford Grey. It sets above the freezing temperature 32°F and can be used for joints up to a maximum of 1.5 in.

Packaging:

- 50 lb bag
- 56 bags per skid

Coverage:

- 65-85 sq.ft. per bag for narrow joints/larger joints will require more sand

POLYBIND G2 SAND - NO DUST • HAZE FREE • NO BLOWER • ONE WATERING

Designed for paver and natural stone joints up to 2".

PolyBind G2 is made with calibrated sand that is mixed with sophisticated intelligent polymers, which neutralizes haze and dust. The polymeric sand application is now dust free and haze free. No blower is needed and the intelligent polymeric sand requires only one watering. It is recommended for a variety of uses including pool decks, patios, footpaths, driveways, parking spaces, pavements, etc. Available in Nevada and Oxford Grey. It sets above the freezing temperature 32°F and can be used for joints up to a maximum of 2 in.

Packaging:

- 50 lb bag

Coverage:

- 65-85 sq.ft. per bag for narrow joints/larger joints will require more sand

POLYBIND G2 COMPLETE SAND - NO DUST • HAZE FREE • NO BLOWER • ONE WATERING

Designed for paver and natural stone joints up to 4" for overlay and non-overlay application.

PolyBind Complete G2 is made with calibrated sand that is mixed with sophisticated intelligent polymers, which neutralizes haze and dust. The polymeric sand application is now dust free and haze free. No blower is needed and the intelligent polymeric sand requires only one watering. It is recommended for a variety of uses including pool decks, patios, footpaths, driveways, parking spaces, pavements, etc. Available in Nevada, Oxford Grey, Ivory White and Jet Black. It sets above the freezing temperature 32°F and can be used for joints up to a maximum of 4 in.

Packaging:

- 50 lb bag

Coverage:

- 65-85 sq.ft. per bag for narrow joints/larger joints will require more sand
- 58-76 sq.ft. per bag for narrow joints/larger joints will require more sand (Jet Black)

POLYBIND DUST

Designed for natural stone joints 1/2" to 4".

Polybind Dust is a unique mixture of polymer binders and calibrated crushed stone available in two colors - Tan & Grey. Once Polybind Dust sets, it becomes very firm and locks between the stone joints. This firm bond maintains the stones securely in place, being equally effective on both horizontal and sloped surfaces.

Packaging:

- 50 lb bag
- 56 bags per skid

Coverage:

- 20-30 sq.ft. per bag for joints 1"-2" wide and stones approximately 2" thick

SUREBOND JOINTING SAND

This jointing sand will properly complete the interlocking of the segmental pavers because it is clean, angular and meets ASTM-C144 specifications. This type of sand is more stable in the paver joints and has the optimal gradation to ensure long term performance of the pavement system. Recommended for joints up to 3/4" • Washed, screened & dried • Available in tan & grey.

50 lb bag

POLYSWEEP POLYMERIC SAND

PolySweep is designed to keep sand in the joints by creating a semi-solid joint. It is a blend of native sands conforming to (ASTM C-144) and binders specially formulated to allow the joints to expand and contract with the elements such as extreme heat, extreme cold and freeze/thaw cycles. Preventing sand erosion from the pavement joints caused by rain and other water run-off. PolySweep has not only proven to produce less hazing, but it also deters weed growth and reduces overall pavement maintenance.

Max width: 2.5 cm (1"); a larger joint width is acceptable where the pavers intersect. Min depth: 3 cm (1.25").

50 lb/bag, 56 Bags/Skid (2,860 lbs/skid)

Available Colors: Grey and Tan

Coverage: Approx. Courtstone - 1 bag covers approximately 25 sq. feet.

Note: Extra care must be exercised when using on Courtstone®, Copthorne®, Richcliff® and Town Hall®. This product is not recommended for Il Campo®, Series™, Unigranite® and Umbriano®.

N/R - Not Recommended

✓ - Recommended

✓* - These pavers have a very narrow or slightly angled edge (chamfer), limiting sand penetration in the joint and causing possible weak bonding areas. The life cycle performance could be affected.

IMPORTANT NOTICE

1. **DO NOT USE** Polymeric Jointing Sand on the following products:

Series™ Il Campo® Unigranite®

If joint stabilization is required, use ordinary jointing sand and apply a stabilizing sealer. **Contact your local Unilock office for recommended sealants and application specifics.**

2. **EXTRA CARE** must be exercised when using Polymeric Sand on the following products:

Courtstone® Copthorne® Richcliff® Town Hall® Umbriano®

Polymeric Jointing Sand can be used on these products but the fine polymers and binders in Polymeric Jointing Sand have a natural tendency to adhere to the surface and therefore extra diligence must be taken to pre-clean the surface prior to "wetting the sand in" and squeegee off the surface post application. Failure to do so will result in a "whitish haze" on the surface that is difficult to remove.

3. **IMPORTANT COMPACTION NOTICE:** Always pre-compact the pavers WITHOUT SAND IN THE JOINTS. This will facilitate proper leveling. Polymeric sand can then be swept into the joints. *Always use a compactor with a protective membrane attached to the bottom of the plate.*

Polymeric Jointing Sand, cleaners and sealers, **must** always be applied by a trained and experienced professional. **Contact your local Unilock office for training and the most up-to-date best practices.**

NOTICE: Unilock does not accept any responsibility for damage to the surface caused by the improper application and use of polymeric sand, sealers or cleaners. Unilock will not accept responsibility for alternate suppliers of polymeric sand, jointing sand, cleaners and sealers.

EDGE RESTRAINT

SNAPEDGE - ONE-PIECE EDGING THAT DOES IT ALL!

- Only one part required for straight runs or curved installations.
- Built-in connector fastens one piece to the next - convenient 96" size, makes them easy to transport.
- Unique 'Snip and Flex' feature speeds installations of curves and corners without pre-planning.
- The open design allows a root system to grow through SnapEdge, further reinforcing the installation.
- Engineered to provide a strong, easy-to-install edge restraint for concrete/clay pavers.
- Nail hole bosses are full-length cylinders. Hammer blows will not fracture or force nail heads through edging.
- Also available in low profile for use with Rivenstone™, Yorkstone™ and natural stone materials.

7. Aggregate Base
8. Compacted Subgrade

EDGE RESTRAINT (Continued)

TIPS FOR QUICK AND EASY INSTALLATION WITHOUT PRE-PLANNING

For a sharp inside corner remove one or two nail hole bosses and bend to desired shape.

Sharp Inside Corner

For a sharp outside corner 'snip' support and bend.

Sharp Outside Corner

Bend Snap Edge to form a better seal against walls, etc., (gaps allow sand leaks and paver failure).

Proper Wall Installation

Gentle Outside Curves

Gentle Inside Curves

Fasten Snap Edge lengths together by inserting tongue on one piece into slot on adjoining piece.

Pieces Snap Together

LANDSCAPE BASE, FABRICS AND GRIDS

POLYBIND GATOR BASE

- 57.9 Sq.Ft./Pkg

UNILOCK DRIVEGRID™ SYSTEM

- 120' x 13' Roll, 1,572 Sq.Ft./Roll
- 56 lb/Roll

CELL TEK 3" & 4" LOAD SUPPORT GRID

- 170 Sq.Ft./Pkg (9' x 24')

GATOR GRID

- GG 30-30 (4' x 50') Biaxial Grid/ 16 rolls/box
- GG 30-30 (6' x 150') Biaxial Grid/ 20 rolls/pallet

GATOR FABRIC

- GF3.5 Non-Woven 3' x 100' 4 roll pkg
- GF3.5 Non-Woven 6' x 100' 12 roll pkg
- GF8 Polyspun (3' x 100') / 9 rolls/box

TOOLS & ACCESSORIES

- Install up to 700 sq. ft. per hour!
- Access tight or narrow areas
- Eliminate the need for a forklift on site
- Reduce labor costs
- Reduce shoulder, hand & knee pain and injury
- Improve your bottom line

Contact your local rep for details

ATLANTIC WATERFALLS KIT

24" blue waterfall
MODEL CF24B/CF24W/CF24R/CF24SW

- 12 Volt
- 20 watts
- 1 1/4" FIPT inlet
- 2000 gph flow rate
- 5" lip extension
- 30' cord and trans
- 24" x 8"w x 3 1/2"h

Recommended for clean water and pond-free applications only

4 LB. SPLITTING HAMMER

Used with Chisel and/or Wall Splitter.

PISA XL LIFTING TONG

The Pisa XL tong makes it easier to lift and place units, especially on the base course. The action of lifting the handle secures the lifter and makes for easy, balanced lifting and placement.

4" CHISEL WITH HAND GUARD

Tapered on both sides for more controlled splitting.

PISA2® LEVEL

Used for leveling Pisa2, Roman Pisa and Split'n Stack wall systems.

U-LEVEL™ NEW

- Easy to use
- Accurate readings
- Low maintenance
- Works in difficult locations
- Large working area

A PRECISION TOOL NO HARDSCAPER SHOULD BE WITHOUT

PAVER PULLER

Used for extracting pavers.

CUTTING EQUIPMENT

UNILOCK PAVER PRO

Industrial Diamond Blades which have been specifically engineered for the needs of the Professional Segmental Contractor.

Blades available in two sizes: 12" x 0.110
14" x 0.110

FIRE ROCK FIREPLACE

PRE-ENGINEERED MASONRY FIREPLACE AND CHIMNEY SYSTEM

The Fire Rock Masonry Fireplace and Chimney System is a pre-engineered refractory components kit system. Fire Rock products represent the latest technology in safe, high-performance, all-masonry fireplaces and chimneys. In recent years, many architects and landscape firms have utilized Fire Rock for outdoor rooms and patios.

Firebox		36"

IMPORTANT NOTES

UNILOCK PAVER PATTERNS

This Product Data Guide contains an extensive reference to patterns and designs. The purpose of these pattern swatches is to help the designer plan unique and exceptional designs. The percentages of products shown are based on the pattern and not on bundle configurations. In fact, there may be situations in which a pattern has been created with one particular size of stone, but that stone only comes packaged with two other sizes. This means that the designer will have to plan how the other components are used in the overall plan. This is usually accomplished by adding a border or an accent. As a result, overages or shortages may occur in certain patterns. The designer and/or installer of Unilock products accepts all responsibility for design and all associated costs incurred as a result of applying any of Unilock's suggested design patterns in a project. Please plan your project and review your order carefully prior to ordering.

TRANSFERABLE LIFETIME GUARANTEE

Unilock provides a Transferable Lifetime Guarantee* on the structural integrity of our paving stones, slabs and retaining wall units to the original purchaser of the product for residential use. Any materials installed and maintained to our guidelines, and subject to normal wear, that prove defective, will be replaced without cost. Color matching cannot be guaranteed and replacement labor is not included. Proof of purchase is required.

Excessive defective material (over the industry accepted normal of 2% for non-tumbled unit pavers) delivered to the purchaser will be replaced free of charge if a written claim is made within 5 days of delivery from the manufacturer. Such claims will not constitute reason for delaying payment. All goods shall be deemed accepted if completely installed. Inspect concrete products prior to opening bundle packaging to ensure that shape and color are as ordered. Unsatisfactory material must be available for inspection by Unilock to entitle the purchaser to any adjustment or credit. Inspect all concrete units during installation and set aside any which are chipped or cracked to use for any cut pieces required. The color of concrete products may vary significantly between production lots. Always install concrete units from several bundles simultaneously to ensure proper distribution of color. Prior to final compaction, inspect installed pavers for good color distribution. Relocate certain pavers, if necessary, to achieve desired color blend.

*Transferable Lifetime Guarantee: Register your project within 60 days of your dated proof of purchase to ensure your Unilock Guarantee is fully transferable! Simply go online at unilock.com and follow instructions. Once processed, you will receive an original Transferable Warranty Certificate for your records.

PRODUCT HANDLING WARNING

Bundle Straps Under Tension - Use extreme caution when removing or handling straps. Always wear gloves, goggles, safety footwear, and protective clothing when removing or handling straps. Failure to do so may result in serious bodily injury or loss of sight. Cut all concrete products only in well ventilated areas. Inhalation of dust is a serious health risk. A "NIOSH" (US) or a "CSA" (CDN) approved respirator, safety goggles, hearing protectors, and gloves must be worn at all times. Always "wet-cut" or "wet grind" concrete products to minimize dust.

Do not stack bundled concrete products higher than 2 bundles high. Contents of the bundle may be unstable and subject to topple when stacked. Always use extreme caution and appropriate equipment when transporting or storing bundled concrete products. Failure to do so may result in serious bodily injury or death. Always obey gross vehicle weight (GVW) loading limitations and regulations.

Hazard Rating: Fire 0, Health 1, Reactivity 0. See MSDS Concrete Masonry (Pavers). Contact Unilock for complete sheet or view safety information at www.unilock.com.

Unilock assumes no liability or responsibility for loss or damage, resulting from the improper use or handling of our products, or from failure to follow instructions, warnings, and/or advisories on the product label, and on the MSDS sheet.
